

FOR IMMEDIATE RELEASE

Rotary Clubs Unite for EPIC Day of Service on May 17, 2024

50 Colorado Rotary Clubs to Lead Local Community Service Projects as Part of a Global Movement

[City, State] — On May 17, 2024, Rotary Clubs across the nation and around the world will come together for the **EPIC Day of Service**, a global movement dedicated to making a positive impact through hands-on service projects. In Colorado alone, 50 Rotary Clubs will mobilize thousands of volunteers to address critical needs in their communities.

Since its inception, the EPIC Day of Service has grown into an international movement, currently spanning **seven countries**—the United States, Canada, Brazil, Australia, England, The Netherlands, and Bermuda. In 2023, this initiative brought together **over 36,000 Rotarians and community members** who completed **1,264 projects** across **21 Rotary districts and 1,200+ clubs**.

This year’s projects in Colorado, as well as in **10 U.S. states** (Connecticut, Massachusetts, Pennsylvania, New Jersey, New Hampshire, New York, Vermont, Colorado, Wyoming, and Michigan), will continue this legacy of impact, addressing issues such as environmental sustainability, food insecurity, education, and community revitalization.

“This is a day when people can witness the true spirit of Rotary in action,” said [Spokesperson’s Name, Title, Rotary Club]. “We invite the media, local leaders, and community members to join us and see firsthand how service transforms lives.”

Local media are encouraged to cover the event, capture inspiring stories, and showcase the power of volunteerism. Interview opportunities with club leaders and volunteers will be available.

For more information on specific projects in your area or to schedule a media interview, please contact:
